

ABOUT THE TRANSNATIONAL IP SEMINAR

The **Transnational IP Seminar** is an annual international event presented in English which takes place in a different country every year.

This year we have the opportunity to **organize it jointly in Spain** with UAIPIT and the Center for Advanced Study and Research on Intellectual Property (CASRIP), the University of Washington, the Queen Mary University, the London School of Law, the Technical University of Dresden, the Roma Tre University and the Center for International Intellectual Property Studies (CEIPI).

This event will **bring together** European and American **judges, professionals, professors and 50 masters degree students** from universities of various countries including Germany, China, Spain, USA, France, Italy, Japan, and the United Kingdom. These students have been selected to participate in this seminar.

During the Transnational IP Seminar these students will attend the presentations and will be trained by several mentors in order to **defend an IP case in a Mock Trial** before our invited participant judges at the OHIM on March 24, 2016. They will also **participate in a Mock Mediation**.
